

Simmons

Long Body Check Valves

(for use with special PVC drop pipe and submersible pumps)

- **610SB & 611SB Check Valves** for use with special PVC drop pipe, submersible pumps and other applications where extra length check valve is needed.
- Extra deep sockets, threads and body length assure that pipe nipple cannot block flow.
- Poppet always has ample clearance to open completely.
- Silicon bronze* cast body and cast poppet.
- Reamed and drifted, Easy-Start Male-Female threads.
- All machining, assembly and testing are done at Simmons factory. Castings and all components are American made.

Made in America

Part No.	Size	Weight		List Price Each
		Each Lbs.	Carton Quantity	
610SB	1" x 1"	1.25	1	23.98
611SB	1 1/4" x 1 1/4"	1.25	1	30.86

All check valves furnished with Buna-N O-Ring, stainless steel spring, stainless steel washer and stainless steel locknut.

All check valves have a working pressure of 400 psi.

*Silicon bronze components contain less than .05% (1/20 of 1% Lead.) Meets California requirements.
